PROFESSIONAL SUMMARY

IAM Analyst with hands-on experience in platform migrations, monitoring and automation. Contributed to migrations of **≥50 internal applications**, analysis of **36 correlated events** and validation of **1,200 SNMP devices** in Performance Center. Google Cybersecurity Certified; preparing for CompTIA Security+. Seeking roles in **SOC, IAM or Security Operations**.

EXPERIENCE

Smart Technologies — BINNGRO Group — IT Consultant Apr 2022 – Present

- 24/7 support for monitoring infrastructures for government and enterprise clients; diagnosis and resolution of SNMP alerts.
- Participated in platform upgrades and migrations; authored runbooks and automated recurring tasks with **Bash**.
- Performed post-upgrade validation and regression testing to ensure operational continuity.

Ministry of Defence Spain — DX NetOps Infrastructure Support Jul 2025 – May 2026

- Supported DX NetOps upgrades: coordinated cutovers, validations and post-upgrade testing.
- Cleaned and normalized the *global collection* and validated Performance Center dashboards for **1,200 SNMP devices**.
- Documented procedures and created runbooks for engineering teams.

Telefónica Spain — SiteMinder Upgrade & Automation Support Oct 2023 – May 2024

- Documented upgrade process across **3 environments** (QA, pre-prod, prod).
- Developed a **Bash script** to extract domain configuration data from SiteMinder, accelerating audits and validations.
- Executed integration and regression tests; validated SSO flows and access policies.

Broadcom / Aspire — Network Monitoring Migration Support Sep 2023 – Nov 2023

- SME for **DX Spectrum** during migration to Assure1; documented event correlation logic.
- Analysed and correlated **36 interdependent events**, producing reproduction scenarios for the Assure1 team.

Volvo Group — IAM Migration Support Jun 2022 – Oct 2023

- Supported migration from **CA SiteMinder to Ping Identity**; validated SSO flows and access policies.
- Participated in migration of **≥50 internal applications** with rollback playbooks and compatibility testing.

Client NGO — IT Infrastructure Support Feb 2024 – Jul 2024

- Managed WordPress site and resolved **50 incidents** via Jira; implemented maintenance and backup procedures.
- Produced operational documentation and runbooks.

TULAlabs — C# Programming Intern Aug 2020 – Oct 2020

- Developed a full-stack application for real-time monitoring; implemented SQL database and responsive web UI.
 - Used Git and participated in code reviews.
-

TECHNICAL PROJECTS AND HOMELAB

Homelab Mac Mini M4 — Virtualization, Docker, Tailscale, Monitoring

- 24/7 homelab with **20+ containerized services**; secure network via **Tailscale (WireGuard)** with zero exposed ports.
 - Monitoring with **Uptime Kuma, Netdata and Glances**; automation with **Bash** and **Watchtower**.
 - Project developed as part of transition into cybersecurity.
-

SKILLS

IAM & Access: Ping Identity; CA SiteMinder; Microsoft Entra ID; SAML/SSO

Monitoring: DX NetOps; DX Spectrum; SNMP; Performance Center

Systems & Automation: Linux (RHEL 7/8); Windows Server; Bash; SiteMinder APIs; scripting

Cloud & Security: Azure; AWS IAM; SIEM fundamentals; Incident Response; Network Security; Vulnerability Management

Other: Docker; Tailscale; SQL; Jira; WordPress; Git

EDUCATION AND CERTIFICATIONS

Bachelor's in Management Information Systems — Instituto Politécnico de Setúbal (2017–2020)

Google Cybersecurity Certificate — Jan 2026

CompTIA Security+ — In progress (scheduled for 2026)

Microsoft Azure Fundamentals AZ-900 — 2023

IAM training: Keycloak; FreeRADIUS; CyberArk — 2024
